Subject: WARN Act Notification

Dear Stephanie,

This letter serves as Auto Warehousing Company's notice to the State of Michigan that our business located at 22400 Vreeland Road, Woodhaven, MI, 48183 will begin permanent employment separations at the close of business effective August 24, 2012. We anticipate that this reduction in force will be multi-phased and will spread over the course of the 3rd quarter of 2012 until December 31, 2012, which could affect fifty (50) associates. This reduction is due to Mazda halting production of the Mazda6 automobile at the Auto Alliance facility. We will continue to service the Ford account at the facility.

This is a union facility that is represented by the Shopmen's Local Union No. 508 – Ironworkers' AFL-CIO. Their employee representative contact is:

Tom Spanski
Business Agent
36040 Michigan Avenue
Wayne, MI 48184

As a union facility we are also providing a list of unionized associates who will be involved in this reduction in force to your office. A similar list of staff reductions is also enclosed. A letter to the highest elected official is also being sent to:

Mayor of Woodhaven Michigan
Patricia Odette
21869 West Road
Woodhaven, MI 48183.

We look forward to scheduling Rapid Response (Michigan Works) worker information meetings with the impacted associates which will be scheduled as the result of submitting this letter.

I am confident as a result of these letters, submitted more than 60 days in advance, Auto Warehousing Company is in full compliance of all WARN Act requirements. If there is any more WARN compliance information needed please contact me immediately. Thank you in advance and I look forward to working with your team during this tough period.

Sincerely,

Ken Varco
Terminal Manager
